# Computing – E-Safety
Big Question – What is personal information?

What do we want the children to know:
- To understand what personal information is and why it is important to keep it private.
- To identify when and where to go for help when unsure about something.
- To understand the importance of being responsible and respectful online.
- To understand that people online are not always who they say they are.

Key Knowledge
The internet can be an amazing place. We can learn new things and find out new information. We can play lots of fun games and we can communicate with others too. However, it is very important that we make sure that we are using the internet responsibly, carefully and safely.

Key Vocabulary

	Personal information	This is information about us, including our name, address, phone number or passwords. We need to make sure that we do not put this information on the internet for people we do not know to see as we would not do this in the real world. For example, if we are playing an online game then do not use your real name.
	Sharing	The internet allows us to post photos and videos online for others to see. This is called 'sharing'. We do not want people we don't know to see personal photos or videos of us, our friends and family so we have to check with a grown up we trust before sharing them online. We would not give a photo of ourselves to a stranger in the real world so we should not do it online either.
	Permission	If we have taken a photo or video of someone else then we need to ask their permission before posting it online as they may not want others to see it.
	Report	If we see something online that upsets us or we think it is wrong, then we need to tell an adult we trust, such as a parent or teacher.
	Trust	Not everything that we see on the internet is correct and can be trusted. Always check the information with other websites or an adult we trust. People online can also pretend to be someone else so we need to be careful who we are talking to and only speak to people we know in the real world.
	Respect	When we are talking to people online then we need to make sure that we are kind and respectful, treating people as we would like to be treated ourselves. If someone is not being kind then speak to an adult you trust.
