

Art Intent:

At Dussindale Primary School, we believe that through art, craft and design, we want to inspire enthusiasm for creativity, imagination and inventiveness whilst providing a deeper awareness of cultural richness and diversity. At our school we encourage all our children to translate what they see around them and capture their interpretations using different media. Children will have the opportunity to learn about great artists, architects and designers and develop their critical analysis of their works so that their personal aesthetic understanding improves. We want to equip our pupils with the knowledge, skills and emotional resilience to be able to experiment, explore, take risks, invent and create, whilst developing a rich vocabulary.

Art at Dussindale Primary School, will enable them to be authentic and explore their own identity as well as being curious about respecting and connecting with others. Most importantly, we want them to foster a positive, life-long relationship with the subject as they move into Secondary Education but most of all to have fun. Children will become involved in shaping their environment through art and design activities, involving different creative techniques. They will explore ideas and meaning through the work of artists and designers. Additionally, as they learn about the history, roles and functions of art, they can explore the impact that it has on contemporary life and that of different times and cultures.

Art Implementation:

At Dussindale Primary School we teach art regularly. We use the Access Art Unit Pathways to deliver high quality art lessons. They are:

[Drawing and Sketchbooks](#) [Surface and Colour](#) [Working in Three Dimensions](#)

The children cover an art unit once every other term and will also have additional opportunities to engage with art and design activities throughout the school year across the curriculum. At Dussindale we teach a predominantly skills-based curriculum, which covers drawing, sketchbooks, printmaking, collage and making. Children will develop a broad skill set with sketchbook work being a continuous thread used in all year groups. Full details of our art curriculum can be found in our Long Term Progression Map. Skills are revisited and honed in a spiral curriculum, which progresses in terms of depth and challenge, to build on the children's previous learning. We ensure that our art lessons are inclusive to enable each child to develop their skills and techniques in a way appropriate to them through adaptive teaching and support, active and purposeful experiences, and using a variety of art materials and teaching strategies.

Art Impact:

Through following a clear and comprehensive scheme of work in line with the National Curriculum, it is expected that teaching and learning will show progression across all key stages within the strands of Art and Design. Subsequently, more children will achieve age related expectations in Art at the end of their cohort year and Key Stage. It is our aim that children will retain knowledge and skills taught within each unit of work, remember these and understand how to use and apply these in their own art work, whilst beginning to understand what being an 'artist' means.

At Dussindale Primary School, we are able to measure the impact that Art and Design has had for all children by:

- Determining the extent to which objectives are met within each lesson and overall, at the end of each unit.
- Images of the children's practical learning.
- Interviewing the pupils about their learning (pupil voice).
- Using sketchbooks as a key way to capture pupil learning.
- Pupil's learning is displayed in communal areas as a wider public display of artwork is a critical part in the artistic process.

We want our pupils to be confident to explore, experiment and take risks, placing value on the process and journey that they take, not just on the finished product.
