

Welcome back from team Y4!

We hope you all had a lovely and restful Easter break. This term we will be studying lots of exciting things! In Science we will be learning about food chains, food webs and how environments can change and threaten living things. In geography we will be studying hemispheres, time zones and lines of longitude and latitude. Our Literacy will focus upon 'finding tales' and our mathematics will cover decimals, shape and time. Design and technology will explore structures and buildings. Our RE topic is 'How do we make moral decisions?' In our PE lessons we will be learning how to play rounders and honing the associated throwing and catching skills. Our PSHE lessons (Jigsaw) will cover relationships.

Useful Information

- Swimming for the remaining Year 4's will be on Monday afternoons.
- PE is on Monday for those who are not going swimming this half term.
- As the weather improves (we hope) remember to put on that suncream and bring in a hat.

Homework and Expectations

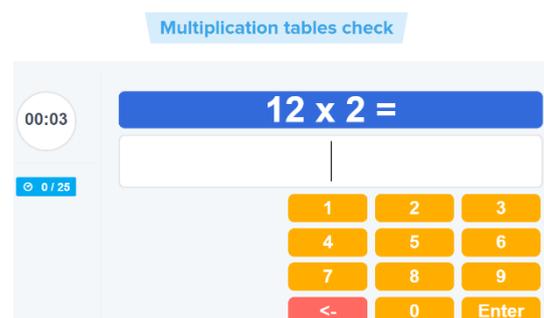

- Children will be expected to read for 10 minutes a day - preferably to an adult!
- They should also be practising their times tables for 10 minutes a day, using Times Tables Rockstars.
- Spelling frame should be used once a week to practise and then test key Year 4 spellings.
- There will be a knowledge organiser each half term, and some optional homework activities that will further your child's understanding of what they are learning at school.

Multiplication Tables Check

As we draw closer to June we encourage you to practice your times tables as much as possible: all eligible year 4 pupils will take the MTC between Monday 5 June and Friday 16 June 2023.

Use the following website to help you:
