

Digital Leader Meeting

30.11.23

We wrote e-safety speech bubbles to be added to the Digital Leader Display by the hall. I will pop these up.

Digi-Leads were given their badges- please keep safe! They will be collected in at the end of the academic year to re-use the following year.

We discussed each classroom having an e-safety focus poster displayed - Digi- Leads will be responsible for writing this each term. I am producing a document for Golden Threads for Computing and this will tell you're your linked e-safety focus for each term to match your unit of Computing. Please find your poster in your pigeon hole and display in your class.

I asked Digi-Leads to talk to classes about Safer Internet Day in February 2024 and to find out what classes would like to learn about/do as a whole school activity to celebrate this day. Please can Digi-Leads feed back to me with their ideas?

Finally, I will be leading a Computing club Wednesday lunchtimes in Spring term and Digi-Leads will be helping me run the club by supporting the pupils.
